Cemetery Work Day

Sunday, June 2, 2024 8:30 am—12 noon

The plan is to reset grave markers, continue to clean headstones, and plant some flowers and bushes to beautify the front entrances.

We need several teams or workers: one team for the heavy lifting of the granite borders, two or three teams for cleaning headstones, and at least one team for planting.

We will need supplies and refreshments. Supplies: wheel barrel, shovels, level, pry bars, buckets, soft brushes, water for cleaning headstones (LOTS), and water sprayers.
